

SOCIAL SCENE DRUG USE AWARENESS

The Rapiscan Learning Academy develops and delivers global, fully comprehensive, high-quality training programs that help create and sustain a competent, professional and well-educated workforce, enhancing service excellence and customer satisfaction.

Our flexibly blended learning, has been developed to ensure that the Rapiscan Learning Academy is your partner of choice for current and future security training.

COURSE OVERVIEW

With the increased manufacturing and trafficking of narcotics, and the addition of the growing adeptness of traffickers in carrying narcotics, it has made it difficult for the Police and partner agencies involved in the night time economy, such as licensing officers to locate them.

To help reduce the availability of drugs within the pub, club or event environment, the Rapiscan Learning Academy has developed a training course that is focused on how to detect synthetic cannabinoid receptor agonists (SCRA's)(Spice) and other new emerging drug threats but inclusive of classic controlled drugs and prescribed medications.

This one-day **Social Scene Drug Use Awareness** course, is designed for a variety of security and events staff. Training can either be delivered at one of our training centres, or at your facility if more convenient for you.

KEY POINTS
