INTERMEDIATE
THREAT RECOGNITION (CABIN) CLASSROOM

RAPISCAN
LEARNING
ACADEMY

The Rapiscan Learning Academy develops and delivers global, fully comprehensive, high-quality training programs that help create and sustain a competent, professional and well-educated workforce, enhancing service excellence and customer satisfaction.

Our flexibly blended learning, has been developed to ensure that the Rapiscan Learning Academy is your partner of choice for current and future security training.

COURSE OVERVIEW

This three-day course is designed to provide students with the skills required to perform Intermediate level Threat Recognition, giving them the ability to detect a range of threat items through better utilization of the equipment available.

The course includes our Basic Threat Recognition (Cabin) content and additional more in-depth learning covering; the theory of radiation; equipment available; health & safety. Also, further threat recognition skills are practiced through X-ray color mapping and concealment modules and the use of Computer Based Training (CBT) x-ray screening software.

TARGETED BLENDED TRAINING

We use only the most engaging and rewarding methods for delivering courses such as videos, interactive learning, gamification, knowledge banks and formal assessment. This provides users with realistic and accurate experiences, by incorporating security screening simulation and interactive knowledge testing in mobile user friendly formats. We ensure our customers and employees are prepared with the knowledge they need to keep themselves and others safe and secure at all times.

Students will have access to a personalized **Learning Hub** for 12 months, full of additional learning content to support effective operation of Rapiscan equipment.

COURSE AIM:

This course provides students with the basic skills to perform Intermediate Threat Recognition and Image Analysis.

COURSE OBJECTIVES:

By the end of this course students will be able to:

1. Provide an overview of security screening equipment available
2. Describe the most efficient method of screening for the applicable operation
3. Explain the basic theory and development behind the technology available for threat recognition
4. Demonstrate methods of threat detection using security screening equipment and CBT
5. Recognize a range of threat items through practical scenarios and on-line learning
6. Detail the most recent and relevant industry regulations, local procedures or best practice
7. Define procedures for operational screening staff up to Operator level

KEY POINTS

COURSE TITLE:
Intermediate Threat Recognition (Cabin)

COURSE CODE:
TRTC002A

METHOD:
Classroom

DURATION:
3 Days

LOCATION:
Rapiscan Learning Academy or Customer Site

MARKET:
Global - Cabin Security

MAX STUDENTS:
10

RECURRENCE:
Initial - Refresher every 12 months

CERTIFICATION & REFRESHER

This course certifies screeners and operators for 12 months from the date of completion. Refresher training is available for this course, both in the form of classroom delivery and digital learning options.

COST & AVAILABILITY

Contact one of our specialists to discuss course options, availability and pricing to meet all of your training needs.
