

QUALITY & EMS POLICY

Rapiscan Systems | AS&E is committed to providing safe and reliable state-of-the-art products, solutions, and services through:

Continual evaluation and improvement of our Quality and Environmental Management Systems.

Observing applicable compliance regulations, workplace safety, environmental, regulatory requirements and standards.

Meeting customer requirements while striving to exceed customer expectations.

Maintaining product conformity, operational effectiveness, and efficiency.

Instituting measures to protect the environment by preventing pollution, reducing waste, and conserving natural resources.

Thorough, regular reviews of our quality and environmental objectives to enhance quality and environmental performance.
